

*Asphalt Density*

*Concrete Testing*

*Coring Asphalt*

Dennis Corporation's knowledgeable inspection staff are experienced in providing quality material testing. In order to provide quality control in the field, all work performed is monitored, inspected and tested by our seasoned inspection staff at required appropriate intervals. In addition, this ensures compliance with all contract documents. We have the ability to conduct all required inspections, including SWPPP inspections and traffic control inspections, and obtain all material samples and prepare daily work reports. Our inspectors are SCDOT certified in the required field of inspection.

Dennis Corporation is fully staffed and equipped to provide construction phase services, including construction management, inspection, quality assurance and quality field testing.

**Dennis Corporation's Construction Services Department is certified through the SCDOT for Earthwork and Base, Bridge Foundations, Portland Concrete, Asphalt Roadway, Nuclear Gauge and Traffic Control Inspections. We also are certified by the American Concrete Institute (ACI) as an ACI Concrete Field Testing Technician Grade 1 and by SCDHEC for Erosion Prevention & Sediment Control.**

If you would like to discuss a potential material testing project, please contact:

**Ricky Craps, Special Inspections Manager**
